

Howdy all,

This will be a very short interim message just to let you know we at the AMEDD Civilian Corps Office have not forgotten you. I know you should have gotten a new Chief's Message by now but need to beg your indulgence. I have had two close-in deaths in the family, my dad and my daughter's father-in-law, that have consumed most of my time for the last seven weeks or so.

Here are a few things I want to get out to you tho.

- First, congratulations to Mr. Charles Rapp from Fort Detrick who, on April 15th, became the first AMEDD Civilian to receive the AMEDD Distinguished Member of the Regiment (DMOR) award. Mr Rapp is retiring after 51 years of federal service.
- Next week folks from the Corps Office will be in DC at a number of meetings, to include the DA Civilian HR Board of Directors Meeting, the Career Program Policy Committee, and meetings with a number of the DA level civilian personnel leadership, that pertain to the work we are doing in the AMEDD Civilian Corps. Topics will vary widely and cover quite a range. We'll provide feedback from those meetings in the next full-up message.
- School is ending and summer is coming. It is time to talk about SAFETY! Please be conscious of safety considerations in all you do this time of year. The weather will lend itself to activities that increase risk for accidents and we often make more time for those types of activities this time of year. Please be aware of and use the Comprehensive Risk Management (CRM) process to mitigate the risks of your activities and keep you safe. You can find information on CRM at <https://safety.army.mil/crm>. Remember, we are all members of the Army Medicine Team and no team is as effective as it is when all the components are present and working together. I have attached a CRM card that you can keep as a reminder of the process.

Thanx for listening and thanx for your patience. Hope we'll be back with you in a couple of weeks with some good info coming out of our DC meetings along with some other "stuff" I hope you'll find of interest. Don't forget to visit the Corps web site at <https://ameddciviliancorps.amedd.army.mil>. There's always a lot of good info for you there.

Take care and stay tuned.

gregg

Gregg Stevens, SES  
Chief, AMEDD Civilian Corps

## Composite Risk Management

### CRM MATRIX

			HAZARD PROBABILITY				
			Frequent	Likely	Occasional	Seldom	Unlikely
			A	B	C	D	E
SEVERITY	Catastrophic	I	EXTREMELY HIGH		HIGH		
	Critical	II					
	Marginal	III		MODERATE		LOW	
	Negligible	IV
